# ABOUT MFMS ONLINE

We are My First Montessori School Online (MFMS Online), a Canadian EdTech company on a mission to solve the global education crisis by educating as many early years children using our handcrafted virtual Montessori methodology. Backed by our brick-and-mortar Montessori school (located in Toronto, Canada), we have created a Virtual Montessori program that has educated over 500 children worldwide (from countries including Canada, the US, Mexico, UK, Switzerland, Ecuador, Armenia, Moldova, Japan, Oman, Serbia, Kazakhstan, and France).

## Our Mission

Our mission is to create an enriching virtual Montessori environment from the comfort of one's home, while fostering our students' social interactions and academic growth.

## Our Vision

Our vision is to educate and nurture future leaders while supporting working parents through our high-quality program by creating virtual experiences that lead to the whole development of children around the world.

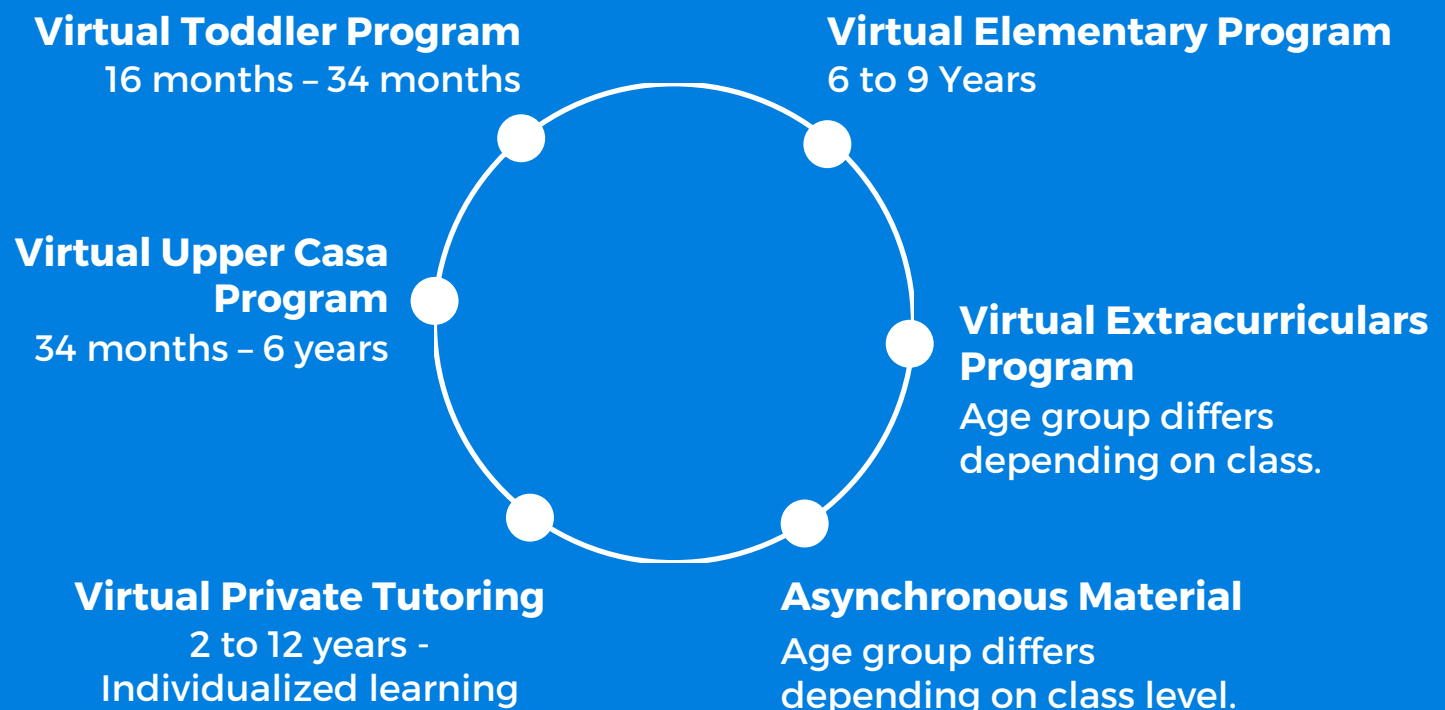

## Our Values

- Safety & Security
- Trust
- Community

# WE WANT TO PARTNER WITH YOU!

The MFMS Online team is looking to provide employers with the opportunity to increase the productivity of their employees while accommodating their children's academic/personal needs. MFMS Online can be used by working parents and caregivers as a core or supplemental learning opportunity for their children. Through this, children will have access to a high-quality virtual Montessori education from the comfort of their own home, learn at their own pace, and experience real life examples of the five areas of the Montessori classroom.

## Our Services In Depth

**All programs are instructed LIVE by certified Montessori teachers**

# WE CAN HELP YOU!

## 1. RETAINING STAFF

By incorporating MFMS Online into your organization's benefits package, parents working-from-home, or affected by COVID-19 have the opportunity to take part in their child's education at a much lower cost than that of private schools or other tuition services.

## 2. SUPPLEMENTARY HELP

We provide several opportunities for parents to supplement their child's education. Some services include private tutoring, after-school Extracurriculars, and other on-the-go Montessori services.

## 3. YOUR VIRTUAL BEST FRIEND

MFMS Online integrates the real-world with the virtual classroom. Students not only receive a higher quality education compared to traditional homeschooling, but they also gain skills that will allow for growth, including independence, communication, self-help and more in a flexible manner.

*"We have seen a clear improvement in Ayden's skills, in a short period of time with 1:1 online tutoring. Lesson plans designed for the individual child is what makes this work. Michelle truly cares about the child's academic success – highly recommend without any reservation."*

“The tutoring sessions have been very helpful for both parents and child. At least this way I know she is learning the Montessori way, and we are not confusing her by teaching her methods of old. Thank you for the support, It is much appreciated. It is not easy trying to convince a 4 year old to do homework.”
